

# AfriNIC Training

2009, 2010 & Beyond

Mukom Akong TAMON

[tamon@afriNIC.net](mailto:tamon@afriNIC.net)

# 2009 Update

March	Accra, Ghana	LIR+IPv6	English
March	Lagos, Nigeria	LIR+IPv6	English
April	Tunis, Tunisia	DNSSEC+IPv6	French
April	Algiers, Algeria	LIR+IPv6	French
May	Cairo, Egypt	LIR+IPv6	English
June	Libreville, Gabon	LIR+IPv6	French
August	Bujumbura, Burundi	DNSSEC+LIR+IPv6	French
November	Dakar, Senegal	IPv6 Adv	French

# 2010+ ...The Territory

- 57+ countries ... 22++ more to go.
- >3 major languages (English, French, Arabic, Spanish..)
- 67,371,700 Internet users (3.9% of global users) and 6.8% of the population.

# The Challenges

- Increase quality of training.
- Increase the number of trainings.
- Resources de formation en différentes langues.
- Not allow training costs to grow proportionality.

# Where Do We Want to Go?

- BEST IPv6 training workshops on the continent.
- Beyond AWARENESS, let's talk HOW-TO-DO-IT.
- Re-target to be more network infrastructure centric.
- Focus on business cases & emerging killer applications.
- **Quadruple** the number of workshops in 2012.
- IPv6 at the top of the tech agenda in Africa.

# How We Plan to Get There

- New competence-centric curricula
  - 20% presentations (theory) -- What is this all about?
  - 30% demonstrations - This is how to do it
  - 50% practice -- Now you do it
- Train new trainers within different regions & deploy regionally
- Develop full complement of learning resources
  - Complete, detailed Learner Manuals/Guides for v6 Testbed.
  - Demonstration videos and screencasts.
- Quarterly “v6 in Practice” e-Zine
- Negate poor connectivity at site: Emulators, Virtualization, local content

# Where We Intend to Be in 2010

JAN	FEB	MAR	APRIL	MAY	AUG	OCT	NOV
South Africa	Gambia	Sierra Leone	Equatorial Guinea	Rwanda	Seychelles	Libya	AF-13
Zimbabwe	Mali	Liberia	Cent. African		Djibouti		
Swazilan			Niger		Eritrea		

# How We Need You To Help

- Register to take our Train-the-Trainers course and become a volunteer trainer.
- Host/Organize a workshop in your country.
- Volunteer to translate training content into French/Arabic/Spanish etc
- Share your deployment experience with us/others
- Give us FEEDBACK!!
  - Information about IT events we can 'storm'
  - Suggest a strategy to increase the number & quality of our workshops.
- Equipment Manufacturer (Huawei? Mikrotik?) ...donate lab equipment and info on how to deploy v6 on your equipment.

# How Will We Know That We Are 'There'?

- Increase in IPv6 traffic statistics.
- Increase in requests for IPv6 address space.
- Increased activity in AfriNIC IPv6 forum.

# Merci Beaucoup!

- Want to help? email
