

African IPv6 Initiatives – Southern Africa

Four perspectives:

- Personal – as an ISP
- Community – as a South African ISP
- Country – Member of the S.A. IPv6 Task Force
- Continental – as an Afrinic Member

Mark Elkins – wearing various hats – mje@posix.co.za

African IPv6 Initiatives – Personal

As an ISP:

Requested an allocation – Jan 2007

Took about a month

Also provided IPv6 access to the local Registry (co.za)

The Registry acquired its own space July 2007

African IPv6 Initiatives – Community

As a South African ISP:

<http://peering.posix.co.za>:

58 devices

32 members peering – including

Packet Clearing House

ISC

Netnode

Ultradns

Community DNS

Ten people have IPv6, Nine actually peer

African IPv6 Initiatives – Country

South African IPv6 Task Force:
Dept. of Communications IPv6 Task Force...
from last month...

African IPv6 Initiatives – Continent

As an AfriNIC Member:
