

Abuse Contact Information in the AfriNIC service region

Tobias Knecht – abusix.org

agenda

- Brief introduction of author/authors.
- History of this proposal
- The objective(s) of the proposal
- Existing policies affected and how
- Summary of the Proposal
- Q&A

Brief Introduction of Author(s)

- Tobias Knecht
- abusix.org & abusix.com

The Objective(s) of the Proposal

Introduce a reference for specific and dedicated abuse contact object for inet(6)num and aut-num objects.

Summary of the Proposal

- Technical Staff of AfriNIC shall create a new or use a existing objects which implements the following qualities:
 - Can be reference only once by inet(6)num and aut-num
 - Contains 2 email attributes:
 - „e-mail“ for personal communication
 - „abuse-mailbox“ for automatic report handling
 - Can be queried via:
 - Classical whois
 - RIPE Abuse Finder Database
 - AfriNIC publishes a Best Practice Paper and a Documentation, which encourages all members to use the new object

Existing Policies Affected and How

No other policies affected

History of this Proposal

- Policy posted first 25.08.2010
- Discussed and didn't find consensus, because of the too specific declaration and the mandatory character.

Let the Deliberations Begin
