

AfriNIC 14 IXPs and Internet Growth

June 9, 2011

Bill Woodcock

Research Director

Packet Clearing House

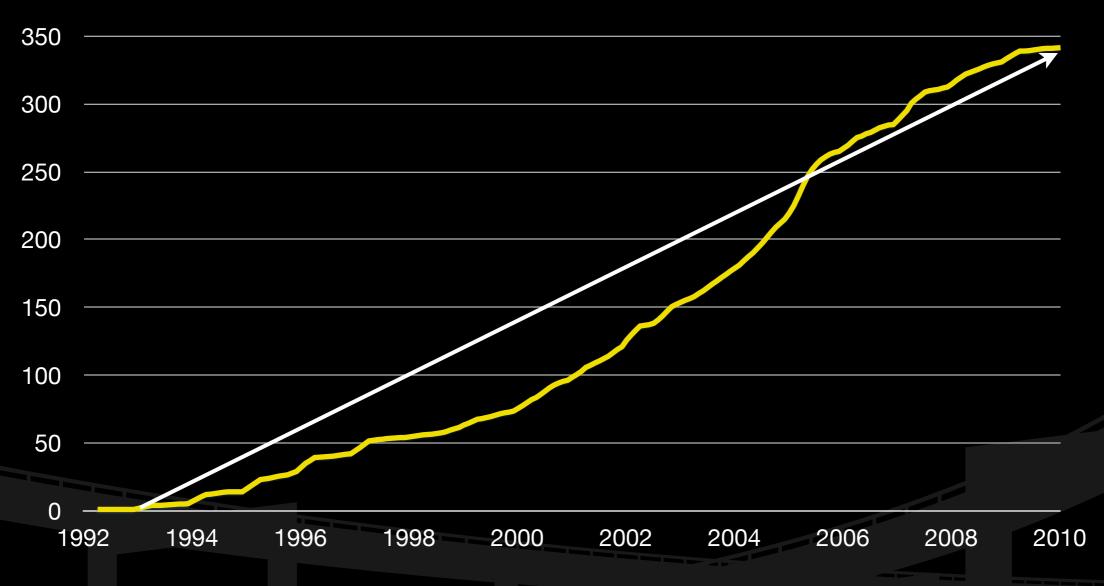

IXP Data from the IXP Directory

The quantitative data in this talk is all derived from the global directory of Internet Exchange Points that Packet Clearing House maintains.

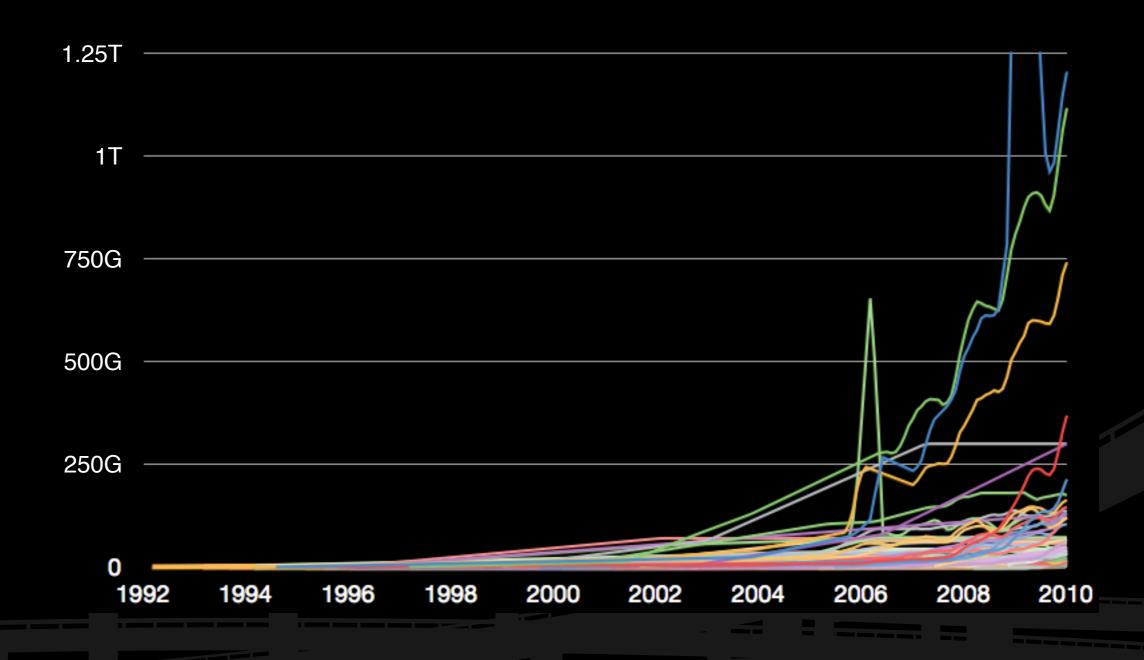

Number of IXPs

About one every three weeks

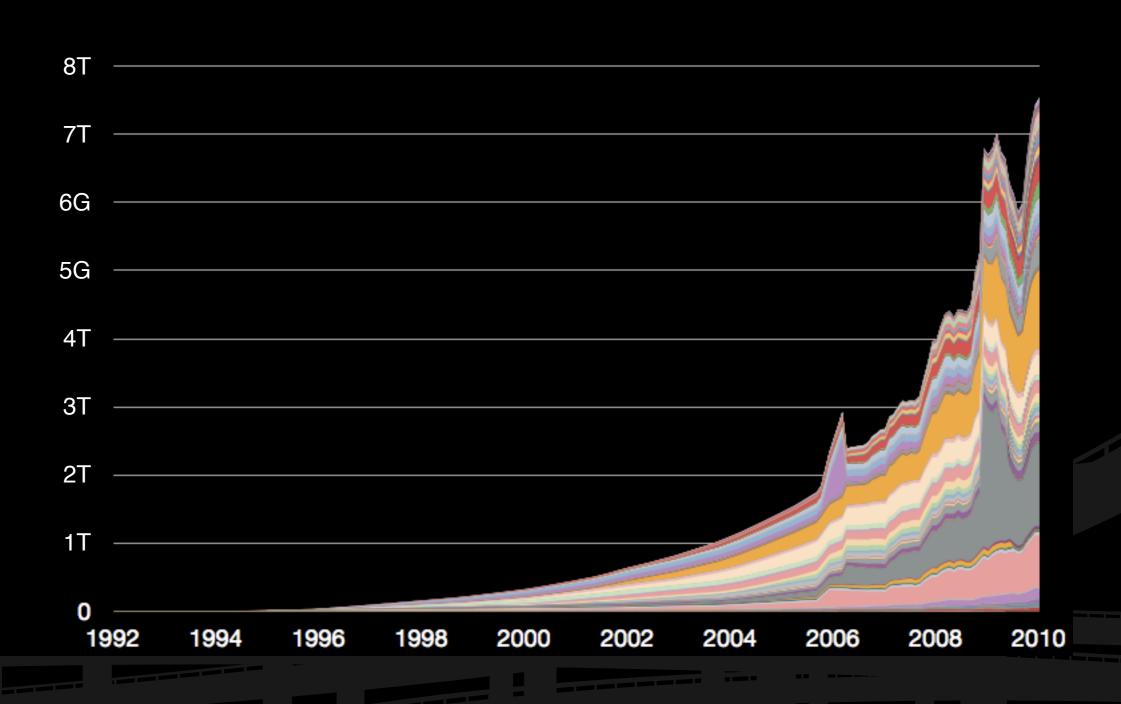

Bandwidth Production per IXP

Global Bandwidth Production

IXP Prefix Mapping

New feature of the IXP Directory:

Geographic mapping of advertised prefix origins.

IXP Prefix Mapping

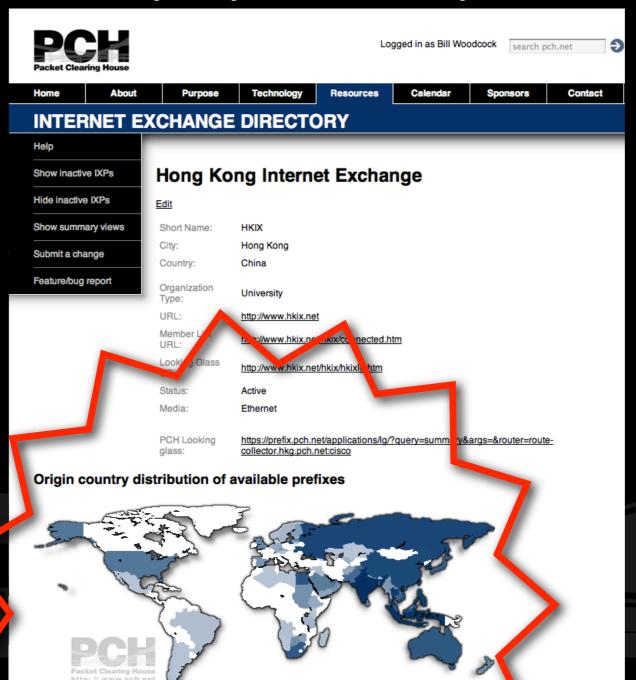

Caveat:

Depends on route visibility at the exchange and accurate RIR whois country record.

Early Stage of Outage Visualization

PCH has been working on an Internet outage visualization system for several years, and this feature is possible because it's beginning to reach fruition.
