

# IPv6 Updates from Asia

2011.11.22

Kilnam Chon

Africa Asia Forum(AAF)

2011.11.13rev

# 1. IPv6-Only Environment

- WIDE Camp in September 2011 set up migration to IPv6-only environment, probably one of the first cases in the world(other than US Dept of Defense).

H. Hazeyama, How can we survive on IPv6 network, AWFIT, Bangkok, 2011.11.12.  
(also in IETF, Taipei, 2011.11.15)

- Experiment --> Migration --> Transition
- Hope to see AfriNIC take the lead.

## 2. IPv4 Exhaustion

- Japan set up IPv4 Exhaustion Forum in 2009.

<http://kokatsu.jp>

- Others also set up including  
Malaysia  
APNIC

# 3. China

- CNGI(China New Generation Internet Project)
  - 2004~
  - CERNET2: IPv6 Research & Education Net

## 4. Malaysia

- Science University of Malaysia is leading IPv6 activity under

<http://NAV6.org>

# 5. APNIC

- APNIC is working with two programs;

IPv6 Program

IPv4 Exhaustion Program

## 6. Remark

- Let's have more closer collaboration between Africa and Asia on IPv6 and others.
