

# World IPv6 Launch – One Year On

June 11, 2013

Jan Žorž  
Internet Society

# Internet Society Deploy360 Programme

[www.internetsociety.org/deploy360/](http://www.internetsociety.org/deploy360/)

Providing real-world deployment info for IPv6, DNSSEC and other Internet technologies:

- Case Studies
- Tutorials
- Videos
- Whitepapers
- News, information

English content, initially, but will be translated into other languages.

**A little more than one year ago...**

[www.worldipv6launch.org](http://www.worldipv6launch.org)

# World IPv6 Launch

## When?

- Beginning 6 June 2012

## What?

- IPv6 is part of regular business, on by default, no special configuration necessary for anyone anywhere

## Who?

- Access networks, home router vendors, websites

## Why?

- **Acceleration:** those already planning to roll-out IPv6 should accelerate their plans
- **Adoption:** those who don't have plans yet – it's safe now, please start
- **Definition:** industry leaders have established IPv6 as the new normal

# World IPv6 Launch – one year on, what now?

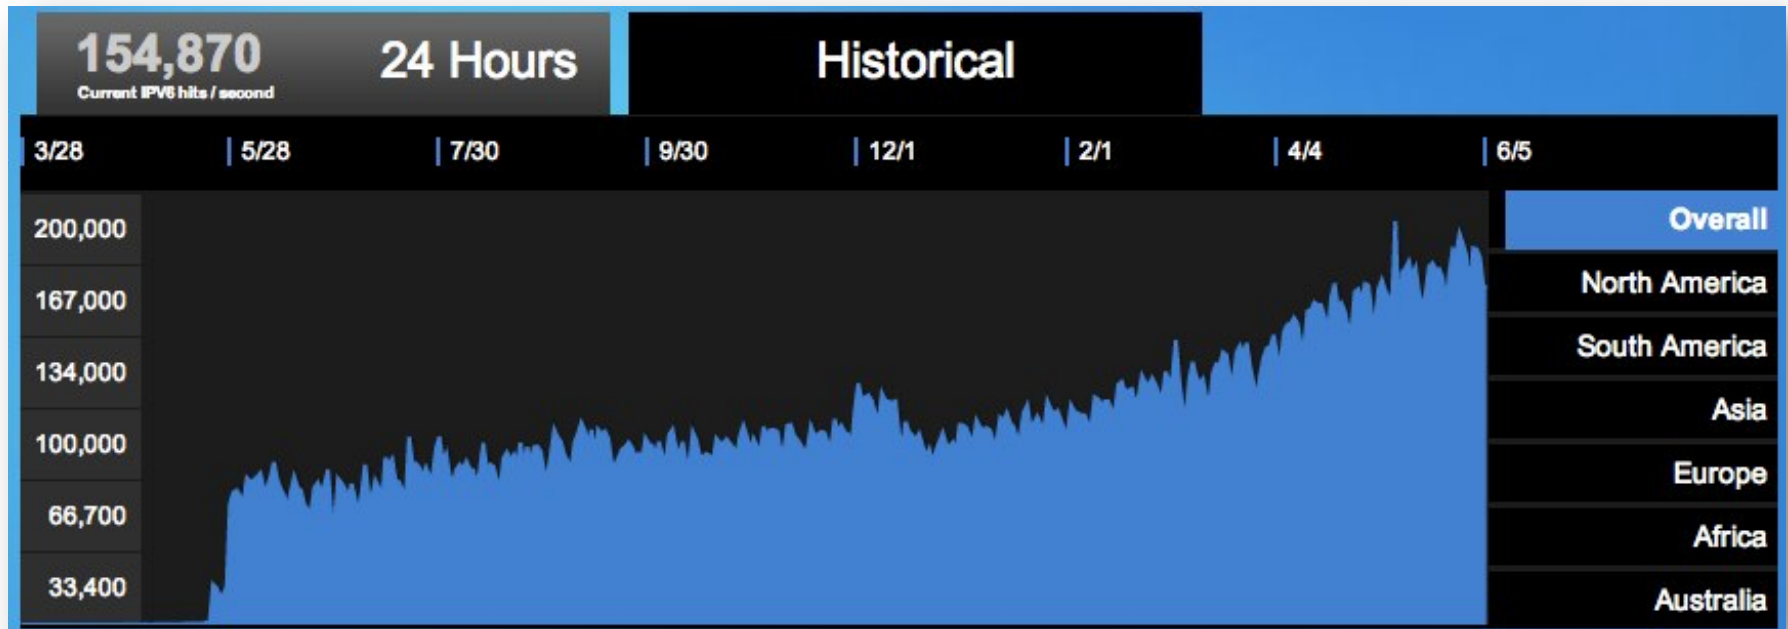

- Updates on the Internet Technology Matters Blog:  
**[www.internetsociety.org/blog/tech-matters/](http://www.internetsociety.org/blog/tech-matters/)**
- Global IPv6 use has **doubled** among World IPv6 Launch participants, with some reporting significantly higher percentages
- IPv6 is an integral part of the global Internet today
- Major parts of the Internet today have IPv6 enabled by default
- Operators are beginning to consider **IPv6-only** deployments

# Significant Growth In IPv6 Usage (Google)

[www.google.com/ipv6/statistics.html](http://www.google.com/ipv6/statistics.html)

# Significant Growth In IPv6 Usage (Akamai)

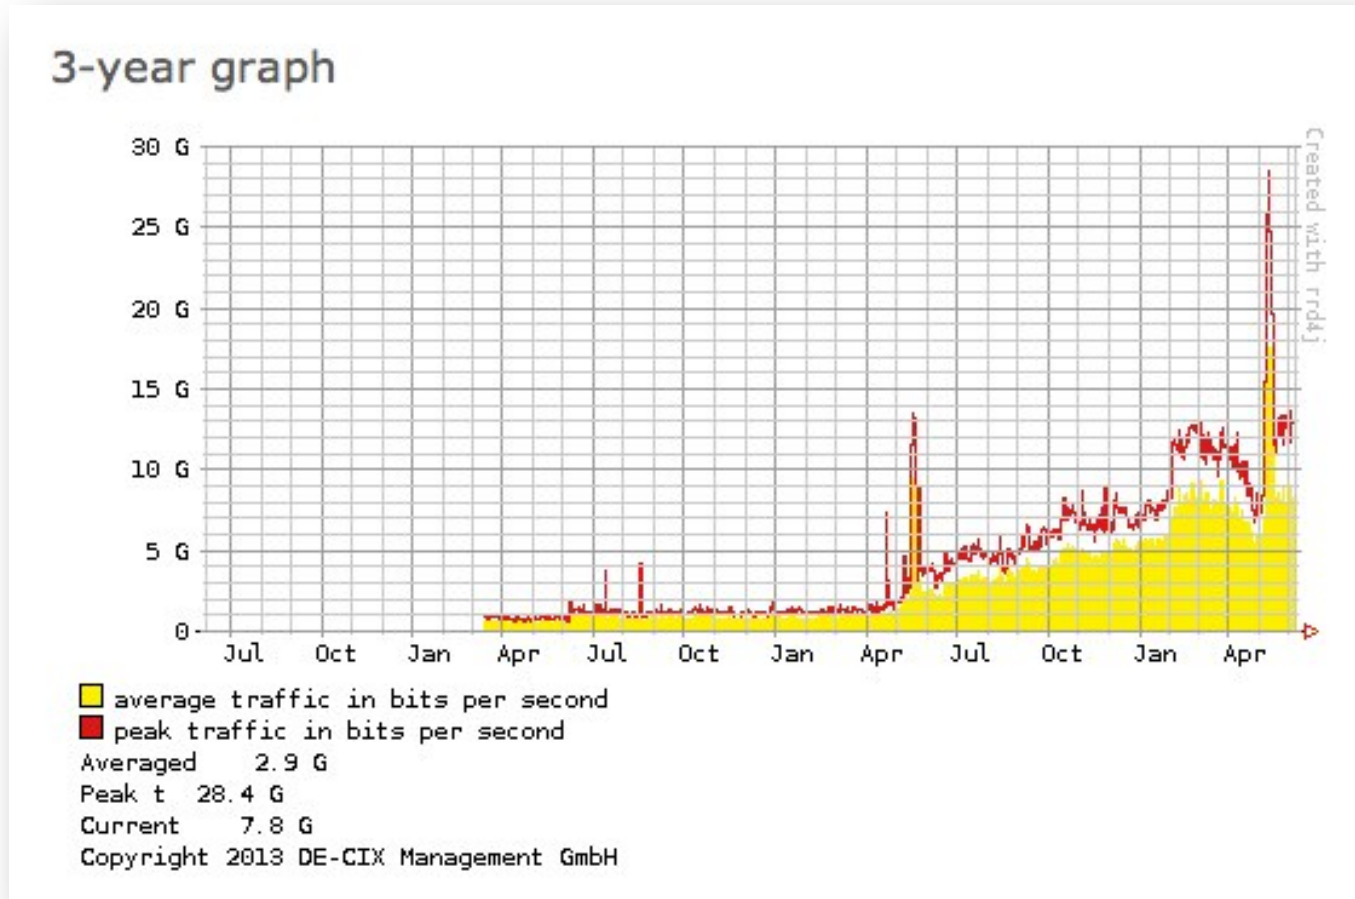

[www.akamai.com/ipv6/](http://www.akamai.com/ipv6/)

# Percentage of IPv6 Use has Doubled

- Google reports IPv6 traffic as a percentage of its overall traffic has **doubled** in the past year
- Akamai reports **250 percent growth** in requests to use since this time last year
- The number of users enabled with IPv6 has **more than doubled** with many network operators worldwide including KDDI, DT, and Swisscom

# Significant Growth In IPv6 Usage (DE-CIX)

[www.de-cix.net/about/statistics/](http://www.de-cix.net/about/statistics/)

# Slovenia and IPv6

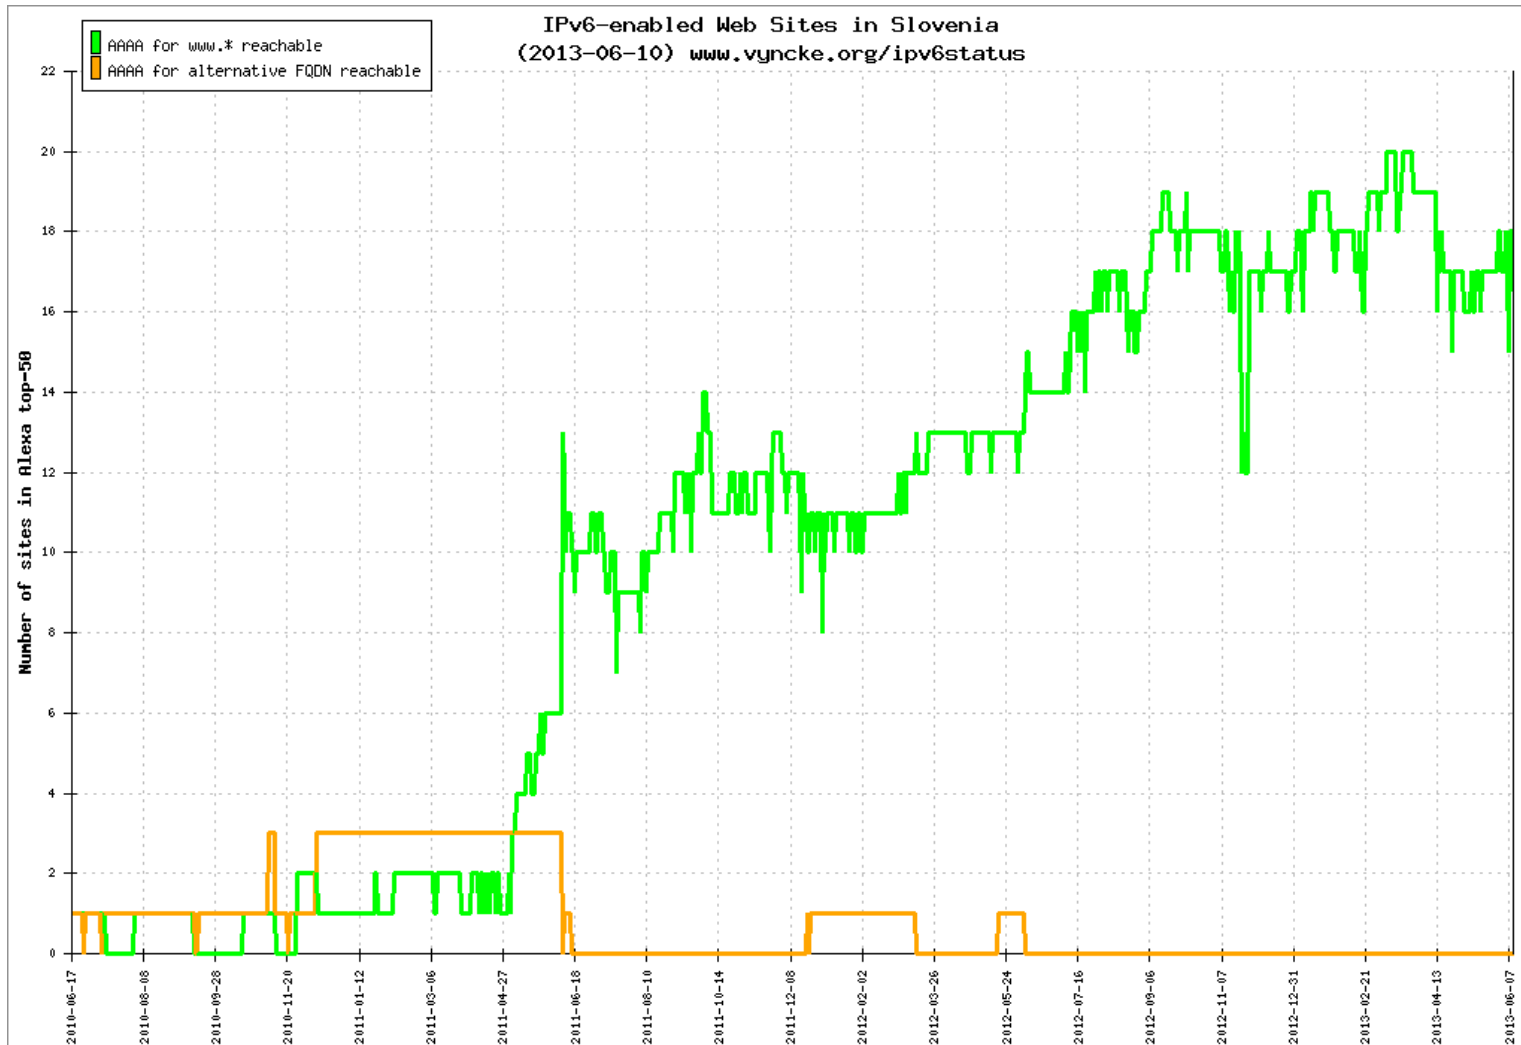

## Web

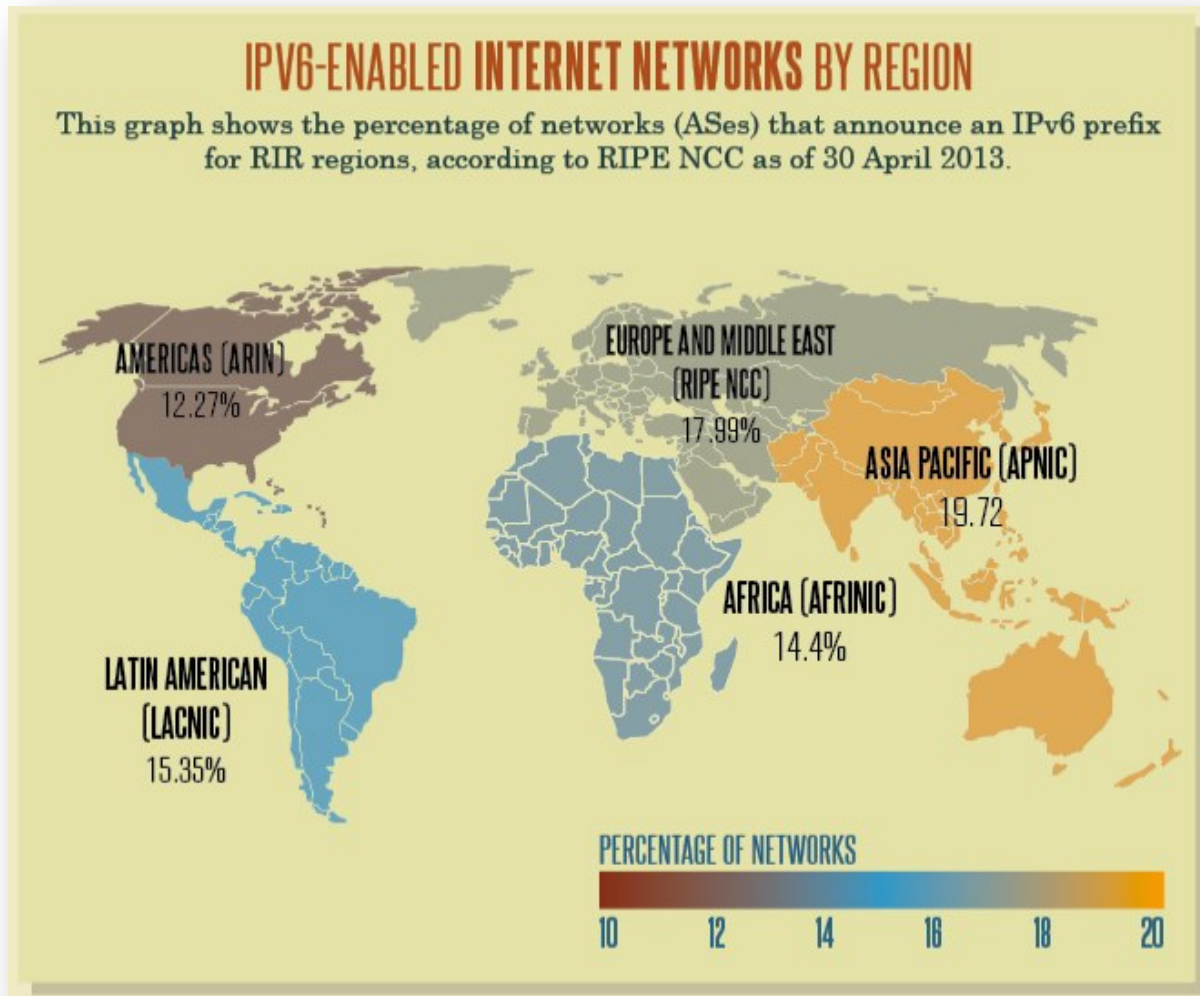

Rank	Country	Sample	Green	Orange
1	 <a href="#">Slovenia</a>	50	36.0% (18)	0.0% (0)
2	 <a href="#">Czech Republic</a>	50	34.0% (17)	0.0% (0)
3	 <a href="#">Brazil</a>	50	26.0% (13)	0.0% (0)
4	 <a href="#">United States of America</a>	50	22.0% (11)	4.0% (2)
5	 <a href="#">Singapore</a>	50	22.0% (11)	0.0% (0)
6	 <a href="#">Greenland</a>	18	16.7% (3)	0.0% (0)
7	 <a href="#">Switzerland</a>	50	16.0% (8)	2.0% (1)
8	 <a href="#">Poland</a>	50	14.0% (7)	6.0% (3)

# Slovenia and IPv6

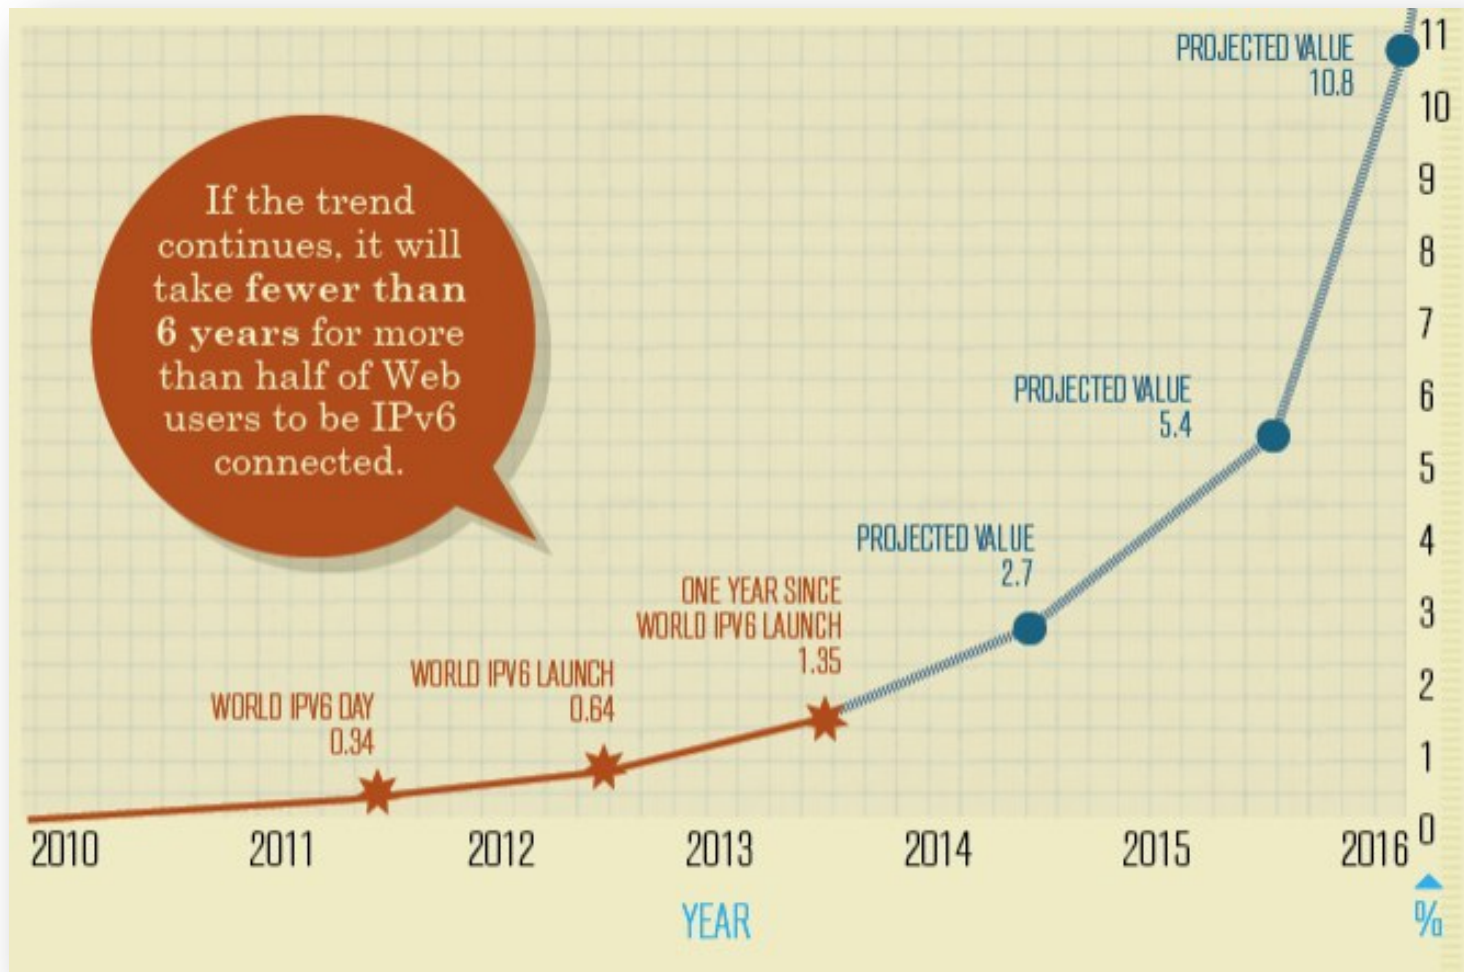

# Growth In % Of Networks Announcing IPv6

[www.worldipv6launch.org/infographic/](http://www.worldipv6launch.org/infographic/)

# Strong Momentum

[www.worldipv6launch.org/infographic/](http://www.worldipv6launch.org/infographic/)

# World IPv6 Launch: Access Networks

## Who?

- ATT, Comcast, Free, Internode, KDDI, Time Warner Cable, and XS4ALL initially
- 69 networks achieved a measurable deployment with an average of at least 0.1% by 6 June 2012
- *110 networks* now reporting measurements
- This includes deployments in regions around the world with significant new deployments in Europe (DT and Swisscom), South America (Telefonica del Peru), and Asia (Softbank and StarHub)

# World IPv6 Launch Measurements

**Network operator measurements, 22nd May 2013 (notes)**

Show  entries Search:

Participating Network	ASN(s)	IPv6 deployment
ATT	6389, 7018, 7132	9.26%
KDDI	2516	8.64%
Free	12322	18.11%
Verizon Wireless	6167, 22394	30.68%
RCS & RDS	8708	16.72%
Comcast	7015, 7016, 7725, 7922, 11025, 13367, 13385, 20214, 21508, 22258, 33287, 33489, 33490, 33491, 33650, 33651, 33652, 33653, 33654, 33655, 33656, 33657, 33659, 33660, 33661, 33662, 33664, 33665, 33666, 33667, 33668, 36733	1.69%
Deutsche Telekom AG	3320	3.65%
Swisscom	3303	14.88%
SoftBank BB	17676	0.93%
VOO	12392	22.78%
Telefonica del Peru	6147	1.77%
Chubu Telecommunications	18126	14.52%
XS4ALL	3265	15.43%

[www.worldipv6launch.org/measurements/](http://www.worldipv6launch.org/measurements/)

Note: This shows the % of IPv6 traffic seen from these networks by Google, Facebook and Yahoo!

# World IPv6 Launch Measurements (sorted)

**Network operator measurements, 22nd May 2013 ([notes](#))**

Show  entries Search:

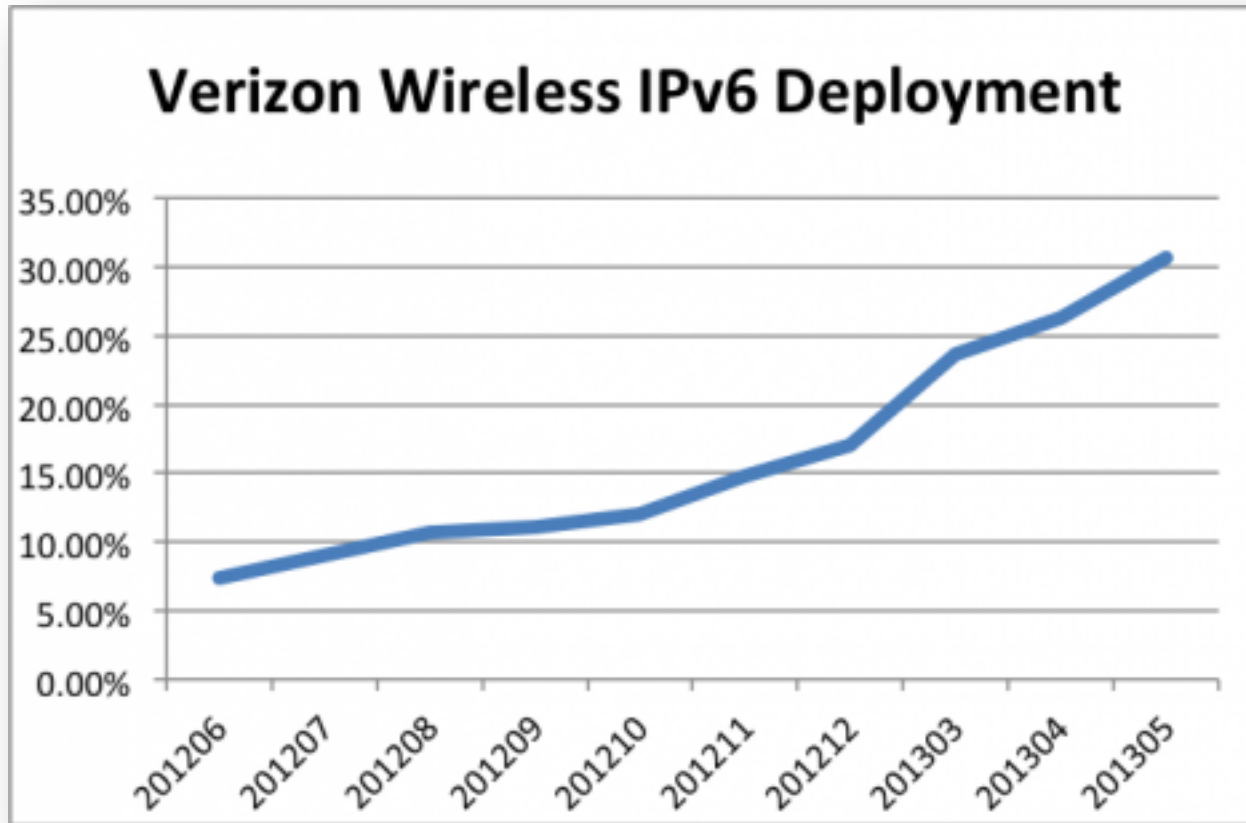

Participating Network	ASN(s)	IPv6 deployment
Virginia Tech	1312	51.81%
SPAWAR	22	43.28%
Rensselaer Polytechnic Institute	91	42.73%
NetAssist	29632	41.29%
DreamHost	26347	40.22%
Verizon Wireless	6167, 22394	30.68%
Hurricane Electric	6939	29.57%
Leibniz Supercomputing Centre	12816	28.69%
DegNet GmbH	20902	28.55%
Marist College	6124	26.82%
Louisiana State University	2055	26.39%

[www.worldipv6launch.org/measurements/](http://www.worldipv6launch.org/measurements/)

Note: This shows the % of IPv6 traffic seen from these networks by Google, Facebook and Yahoo!

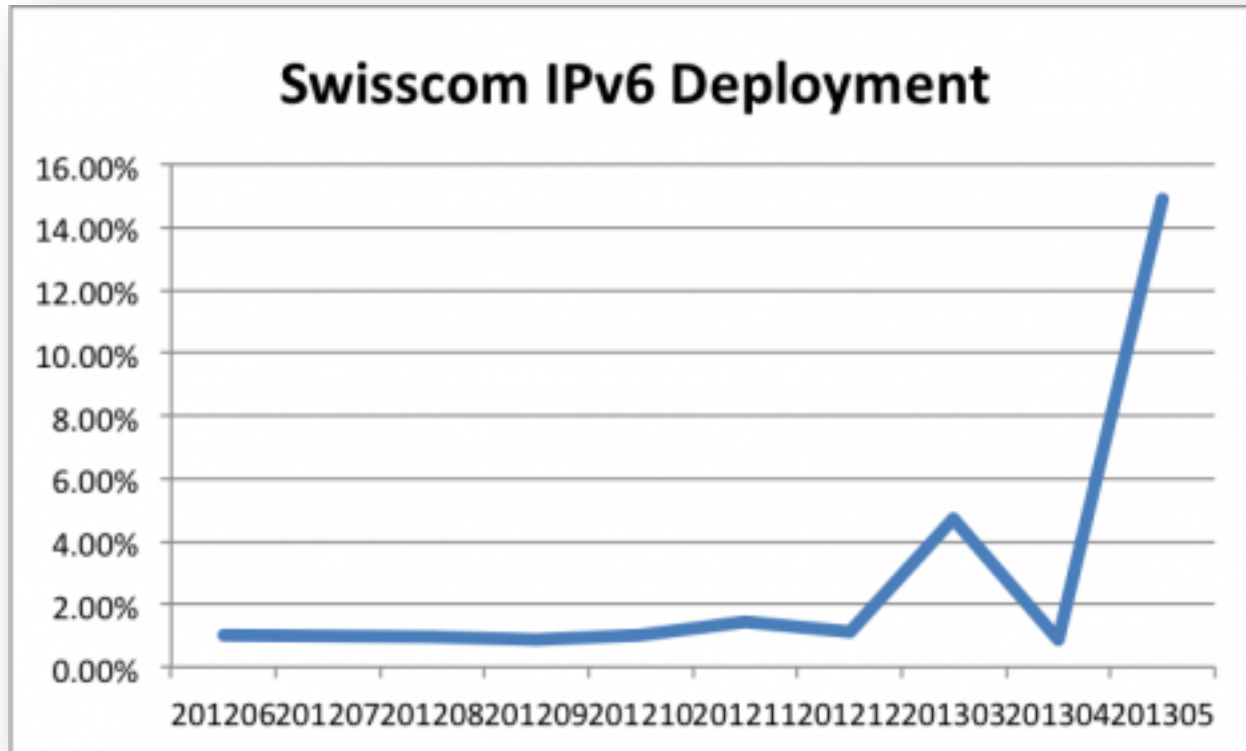

# Mobile IPv6 – LTE

[www.internetsociety.org/blog/tech-matters](http://www.internetsociety.org/blog/tech-matters)

Note: This shows the % of IPv6 traffic seen from this network by Google, Facebook and Yahoo!

# Swisscom Surges

[www.internetsociety.org/blog/tech-matters](http://www.internetsociety.org/blog/tech-matters)

Note: This shows the % of IPv6 traffic seen from this network by Google, Facebook and Yahoo!

# World IPv6 Launch: Home Router Vendors

## Who?

- Cisco and D-Link initially
- Now 10 vendors - 8 other home router vendors joined
- See: [www.iol.unh.edu/services/testing/hnc/cerouter.php](http://www.iol.unh.edu/services/testing/hnc/cerouter.php)

## IPv6 is part of Regular Business now

- Majority of products shipping with IPv6 on by default
- No user configuration is required to use IPv6
- V6 interoperability verified by UNH-IOL
- Great start - much work remains to be done for all sorts of consumer devices

# IPv6 Home Routers

## IPv6 CE Router Tested List

The following routers have passed IPv6 testing and provide a high level of confidence operating in an IPv6 environment.

Company	Product	Product Version	Test Scenario Version	Date Listed
Actiontec	MI424WR	40.99.2.4	1.0.0.b6	11/9/11
Broadcom	BCM 93380 WVG	5.5.6	1.0.0.b6	11/9/11
Broadcom	BCM 93383 WVG	5.5.7	1.0.0.b9	6/5/12
Cisco Systems	Linksys E4200v2 and EA4500	Firmware 2.0.37	1.0.0.b8	2/2/12
Cisco Systems	Linksys E4200	v1 Firmware 1.0.04	1.0.0.b8	1/12/12
D-Link	DIR 652	v1.00	1.0.0.b6	11/9/11
D-Link	DIR 825	v2.00	1.0.0.b6	11/9/11
D-Link	DIR 835	v1.02	1.0.0.b9	5/25/12
Lantiq	Broadband Router/Gateway/XRX100/XRX200/XRX300	UGW-5.x series Router/Gateway	1.0.0.b6	11/9/11
Motorola Mobility LLC	SGB6580	v6.3.0.0	1.0.0.b9	9/05/12
NDM Systems	ZyXEL Keenetic series	NDM Firmware v2.0	1.0.0.b9	5/17/12
NEC AccessTechnica	Aterm BL190HW	v2.1.12a (*)	1.0.0.b9	5/30/12
Yamaha	Giga Access VPN Router RTX1200	10.01.40 (build 10)	1.0.0.b9	6/4/12
ZyXEL	VMG1213	v1.32	1.0.0.b9	6/4/12

[www.iol.unh.edu/services/testing/hnc/cerouter.php](http://www.iol.unh.edu/services/testing/hnc/cerouter.php)  
List as of 5 June 2013

# World IPv6 Launch: Websites

## Who?

- Facebook, Google, Microsoft Bing, and Yahoo! initially
- 2300 websites turned up IPv6 for 2013 launch – *MANY* more now!
- Big content available over IPv6 now: Google, Facebook, YouTube, Yahoo!, Bing, Wikipedia, Netflix, etc.

## IPv6 is part of Regular Business now

- IPv6 is enabled on the main website
- No IPv6 specific URLs ([www.ipv6.example.com](http://www.ipv6.example.com)) or mirror sites
- IPv6 enabled users use IPv6 without doing anything
- Over 10% of Alexa top 1,000 sites serve IPv6 now

# World IPv6 Launch - Impact

## IPv6 is an integral part of the Internet now

- Major websites (Google, Facebook, Yahoo!, Wikipedia, Bing) are using IPv6 continuously
- ISPs continue to deploy IPv6 for end users
- Home router vendors are shipping with IPv6 enabled by default

## IPv6 allows network operators to avoid costly workarounds to IPv4 address exhaustion (such as address sharing schemes involving Carrier Grade NAT (CGN))

- IPv4 is effectively gone in Asia-Pacific
- IPv4 is effectively gone in Europe
- IPv4 will soon be gone in N. America

# World IPv6 Launch: What's next?

## Measurements

- Google, Facebook, and Yahoo! continued to measure v6 traffic to their sites:
  - [www.worldipv6launch.org/measurements/](http://www.worldipv6launch.org/measurements/)
- These measurements will continue through 2013. Each month we will summarize the results.
- If you are doing measurements that have a large footprint and would like to contribute please contact us.
- More measurement sites:
  - [www.internetsociety.org/deploy360/ipv6/statistics/](http://www.internetsociety.org/deploy360/ipv6/statistics/)

# Deploy360 – How Can We Help You?

## Visit and explore
