PROFESSIONAL EXPERIENCE

Since 04/2012 : Google – Public Policy & Voverment’s Relations Manager North Africa

Develop and lead public policy campaigns across the full range of policy areas that impact Google and the web. Key issues include technology innovation, free expression, privacy and intellectual property. Engage directly with politicians and policy-makers and build a network of trade associations, industry partners, non-profit groups and others to support policies that will help create/maintain a user-focused online environment as well as an open Internet.

2002-2012 : Independent Consultant

Independent Consultant I experienced helping organizations improve their performance and business through by providing strategic direction.

I provide organizational change management assistance, development of coaching skills, technology implementation, strategy development, or operational improvement services.

I focus on advising organizations on how best to organize their work to meet their objectives. In addition to providing advice, I often implement, deploy, and administer solutions on organizations' behalf.
