www.afrinic.net

African Network Information Centre (AFRINIC) is the regional Internet numbers registry for Africa tasked with the responsibility of equitably distributing Internet number resources in the continent. AFRINIC exists to grow Internet for the sustainable development of Africa. One of the prominent ways in which AFRINIC implements this vision is through major events held around the continent to champion this debate. It is for this reason that AFRINIC will be holding the 29th series of these meetings. Dubbed AFRINIC-29, the meeting will take place from 26th November 2018 to 30th November 2018 in Hammamet, Tunisia.

AFRINIC Meetings are held twice a year rotating in countries across the continent. They provide a platform for all African governments and global stakeholders to discuss and benchmark issues regarding Internet policy, Internet governance, ICT4D, Internet access and technical capacity building.

Tunisia is the perfect introduction to the Maghreb region, and Hammamet is North Africa's most easy-going town. From stunning old architecture to adventurous activities and delicious food, Hammamet's laid-back atmosphere combined with its exotic appeal makes it an excellent destination for all kinds of travellers.

Besides its incredibly relaxing environment Hammamet is blessed with white sandy beaches and rich vegetation consisting of orange trees, lemon trees and olive groves. For this reason, many also call it the "garden resort".

Hammamet is proud of its cultural heritage and boasts of a vast array of museums, pottery, archaeological sites, and art crafts. The Kasbah of Hammamet, Friguia nature park, Musee des Religions, Griba synagogue, the famous Carthageland Park, Gafsa and Bardo museums stand out as great places to visit.

# Participation

We have invited the top leadership in Tunisia to grace the event. The event is also open to over 1,500 AFRINIC members from the 54 countries of Africa as well as our global stakeholders and partners.

The meeting will bring together leaders and top executives from Internet Service Providers and organizations concerned with Internet policy and development from around the world. Renowned speakers and experts will also be at hand to give perspectives, presentations and participate in panel discussions on latest developments and case studies in e-Infrastructures, applications, research, entrepreneurship and more.

# Discussion Topics

AFRINIC 29 will provide a platform for delegates to deliberate and address the following key questions;

- What strategies can we use to drive IPv6 Deployment throughout the continent?
- How can we improve and expand Internet infrastructure to ensure low cost, resilient and secure Internet access and keep our content and traffic local?
- How do we ensure affordable, always-on Internet access for all so that all African citizens can reach their potential?
- What are the policies guiding Internet number resource distribution in Africa and how do we ensure that all stakeholders participate in the Policy Development Process (PDP)?
- How can we keep our networks safe from cyberattacks, DDoSs and shutdowns?
- How can we harness the power of the Internet to help end poverty and ensure prosperity for all?

# Why Sponsor?

Africa is progressing towards greater connectivity and the future depends on how AFRINIC alongside key stakeholders such as Governments, regulators, network operators, academia and business leaders can harness the massive opportunities available.

AFRINIC-29 will provide a unique opportunity for your organization to share and showcase your vision for this aspiration as well as open multiple business opportunities brought by the global audience attending the event.

Specifically, sponsoring AFRINIC-29 will provide your company with an excellent opportunity to:

- Create, maintain and enhance brand awareness among a relevant high-profile audience
- Build and reinforce strategic relationships with key players in the ICT sector across the globe
- Network and generate new leads and ROI
- Access a broad network of leaders and decision-makers
- Intellectually influence industry peers
